YOUNG PROFESSIONALS MENTORSHIP PROGRAM

The Young Professionals Committee (YPC) of the Canadian Chamber of Commerce in Hong Kong believes in establishing a platform for young professionals to further develop their personal careers, build strong business and social networks, and provide learning opportunities across a broad range of topics that have relevance to young professionals today.

The Young Professionals Mentorship Program aims to develop the business acumen of young professionals by allowing them to learn from the experiences of distinguished mentors and broaden their professional network in Hong Kong.

“The mentorship programme is a great way to take the next step in advancing one’s goals, from career to networking and beyond. I can safely say my Mentor’s guidance and support was the single-most influential factor that led me to grow my business and take on new challenges.

Dustin Ciarla,
Director at Sleepere HK Limited (Mentee)

PROGRAM STRUCTURE

The Mentorship Program strives to inspire experienced young professionals by facilitating relationship building, trust, and experience exchanges, while offering support and guidance.

This one-on-one program runs for 6 months and pairs young professionals (mentees) with experienced professionals (mentors). Mentors will provide support and guidance to the mentees with a focus on the Program’s mission, while mentees will participate in meetings and workshops.
